WORLD PETROLEUM

VOLUME 1 (Eleven Months)

INDEX OF EDITORIAL CONTENTS

February-December

1930

Subject — *Pages*

A

A. P. I. Meeting at Chicago.....539 and 547
Accidents, Prevention of 195-198
Africa, Portuguese East.....442
Airey on crude oil price cut.....545
Alberta's bituminous sands may be mined.142-144
Alberta now in 1,000,000 bbl. rank.....28
Alcohol as fuel in Brazil.....321
America, tropical, and oil workers.....541-545
American oil well and refinery machinery exports 372
American Petroleum Institute Chicago Meeting .....539 and 547
American refinery combination in France.....449
Anglo-Persian Oil Co. 26
Arbitration would prevent price wars.....119
Argentine development .....88 and 185-187
Aruba, food and water for 283
Aruba refinery 36-37
Association of cooperation 15

B

Bailey's article "Putting oil house in order" 275-276
Belgian oil duties 392
Bell's article on Russia's advance in Petroleum world 133-137
Benefits of conservation.....477-478 and 551-552
Bituminous sands may be mined in Alberta.142-144
Bituminous sands, experiments with.....388-389
Blow-out, capping a Venezuelan.....330
Bolivian development 88
Brazil, Alcohol as fuel 321
Brazil and its petroleum situation.....288-290
British oil companies, partnerships of.....26-27
Building a great oil business.....381-387
Burmah fields, electrification of.....78-80
Burmah Oil Co. 27
Business looks at tropical medicine.....81-84

C

C. F. P. and French Petroleum politics.138 and 276
Canada, Alberta's bituminous sands may be mined 142-144
Canada review of oil fields.....28
Canadian oil tariff improbable 340
Cancellation of export gasoline price.....537-538
Capping a Venezuelan blow-out.....330
Cause of gasoline export price cancellation.537-538
Chart showing flow of crude oil in world commerce 130-131
Chart showing flow of gasoline in world commerce 234-235
Crude oil, International trade 128-132
Colombia's new oil laws 495
Colombia—Today's oil situation reviewed.440-441
Colombian and Peruvian production.....442
Colon development in Venezuela.....85-87
Comments on Wasting the benefits of conservation 551-552
Commerce 23, 68, 124, 570
Compagnie Francaise des Petroles.....182-183
Complete Mexican Production figures.....345-346
Conservation and imports 431-432
Cooling tower design 341-343
Crossroads of oil industry.....229
Crude oil price cut. Comments by Airey.....545
Curacao refinery 36-37
Current Russian oil production.....334-335
Current situation of the oil industry.....549-550
Curtailment, world-wide, for better crude prices .....552 and 561
Cutting wildcat rotary drilling costs.....284-287

D

Deep drilling practice and equipment.....32-35
Deterding, Sir Henri, discusses cooperation....15
Deterding's reply to the Soviets.....540
Development costs in Venezuela 548
Developments in Eastern Venezuela.....140-141
Developments 1929 88-96
Developments, Russia 91-94, 184, 331-334, 391-392, 511
Diminishing returns, Law of 171-173
Discipline in the oil industry 553
Distributing motor-fuel by pipe lines.....443-446
Drilling practice 30-35, 139, 188-194
Drilling congress 30-31, 139, 491
Drilling practice and equipment.....32-35, 188-190
Drilling, Rotary, cutting the costs.....284-287
Drilling today and ten years ago.....188-190
Drilling, Turbo 241-244
Duties, Belgian 392

E

Eastern Venezuela developments.....140-141
Eastern Venezuela petroleum situation.....491
Economic aspects of unit operation.....485-488
Economic laws have not always governed crude oil prices in Mid-Continent.....65-67
Economics v. U. S. oil artifices..... 64

EDITORIAL LEADERS.

A. P. I. Meeting 476
Airplane consumption 118
Another side of the case 369
Argentine legislation 476
Australia's problem 118
Avoiding conflicts 117
Babson on advertising 424
Benefit of Diesel power 319
Better roads a solution 273
Brisbane speaks on oil 535
Changed conditions 118
Colombian oil laws 536
Competition has revived 62
Controlled evolution 117
Cooperation has failed 64
Cooperation unattained 13
Danger of Iraq 423
Dangerous practice 536
Deprecating imperialism 169
Dislocated economics 169
Eliminate gas tax signs 369
Europe invites 14
Export gasoline 424
Forward by the publisher 13
France and Iraq oil.....169
From coal to oil 169
Gasoline marketing 475
Gasoline pipe lines 424
Higher tanker speeds 319
Hydrogenation expansion 274
Import tariff repercussive 369
Inter-company efforts 14
Inter-company results 14
International oil trade .....118, 319 and 424
Japan, not Java 118
Means dearer bunker fuel 274
Measured opinions 118
Mergers and their problems 274
Political business 14
Politics and pipe lines 476
Predicting consumption 117
Price cutting 475
Price war losses 423
Problems of independents 369
Producers surprised 63
Production, 1929 13
Regulated distribution 221
Resumption of drilling 319
Russian competition 273
Self-preservation law 273
Stability impractical 221
Tariff absurdity 63
Tariff question 536
Today's situation forecast 535
Tulsa awaits the world 274
U. S. Prices prevail 221
Valuable to Aruba 274
Venezuela to expand 14
Venezuelan reglamento 423
Wanted a strong man 476
World-wide expansion 536

Electrification of Burmah fields.....78-80
Electrification of Maracaibo oil fields.....430
Electrification of Venezuelan oil fields.....430
Export price cancellation 537-538
Exports and imports of crude oil.....128-132
Export prices petroleum products 488
Exports, oil fields 430
Experiments with bituminous sands.....388-389
Exports, American oil well and refinery machinery 372
Exports, oil field machinery 326
Exports and imports of gasoline by countries.236
Exports and imports—International trade in crude oil 1928 128-132

F

Fight on oil tariff continued 491
Fighting oil fires with water.....447-448
Finance....17-19, 71-74, 121-123, 174-176, 225-228, 277-279, 329-325, 371-372, 426-427, 507-509, 567-569
Fires, fighting oil fires with water.....447-448
Flow of crude oil in world commerce, chart.130-131
Flow of gasoline in world commerce, chart.234-235
Flying in Venezuela 20
Food and water for Aruba 283
Foreign oil legion 20, 69, 282, 326, 375, 429, 510, 572
Fractionation and recovery of gasoline....557-561
Francaise des Petroles, Compagnie.....182-183
France, American refinery combination.....449
France, Gasoline price lowered.....488
France seeks to establish refineries.....76-77
French petroleum market output.....376-380
French petroleum politics and the C. F. P....138
French refined product licenses granted.....335
French state and C. F. P.....276
Fuel oils, world marketing 327-329

G

Gas lift well 496-498
Gas as power, Growing importance.....291-292
Gasoline, International trade.....233-237
Gasoline, world trade analyzed—exports and imports by countries.....236
Gasoline price lowered in France.....488
Gasoline, recovery and fractionation.....557-561
Germany—Has she extensive deposits?....494-495
Godber's article on world-wide curtailment collaboration .....552 and 561
Gould's article on oil price structure and the future 536-537
Growing importance of gas as power.....291-292
Guianas—Oil possibilities in 344

H

Has Germany extensive oil deposits.....494-495
Health in the Tropics, Care of.....81-84
Hinterland of Venezuela 85-87
Hole surveying 393-396
Holes, Why they go crooked in drilling....191-194
Holmes' article on current situation of oil industry 549-550
How Mexico's oil controversy was settled..492-493
Hydrogenation, Licenses and future.....127
Hydrogenation process accepted by Royal Dutch 232
Hydrogenation, Standard Oil story on process 433-435, 499-504

I

Imports and conservation 431-432
Imports and exports of crude oil.....128-132
Imports and exports of gasoline by countries..236
India production 339-340
International Drilling Congress.....30-31, 139-141
International oil interests in Iraq.....481-484
International Petroleum Exposition.....456
International refinery center 36-37
International trade in crude oil in 1928..128-132
International trade in gasoline 233-237
Iraq and the myth of Mosul oil.....24-25
Iraq, International oil interests.....481-484
Iraq, Petroleum Co. 27
Iraq pipe line situation 550
Iraq still bone of contention .....380 and 387
Iraq, wildcatting for crude 554-556

J

Jackson's article on recovery and fractionation of gasoline 557-561

K

Kapelushnikoff turbo drilling system.....241-244
